About Us

GAP’s mission is to provide peace of mind to the owners and companies of which we are providing our services. GAP is an engineering company that was created to bring highly skilled individuals in the engineering, inspection, and construction sectors together to provide the highest client satisfaction and most cost effective project solutions. GAP has executed projects with a perfect safety record in the following industries:

- Energy
- Oil & Gas
- Construction
- Food Processing
- Paper
- Mining
- Pharmaceutical

Our wide scope of experience, coupled with our focus on strong client communication, ensures GAP’s abilities to be unsurpassed.

GAP is the perfect size for all your project solutions because we know what key personnel are necessary for the job and not, which saves money and time in the long run. We have the **knowledge**, we have the **ability**, and we have the **experience** to bring innovative ideas and solutions to any of your problems. We hope to be able to serve you in your future project needs.
