

## GAP Engineering, Inc. Capability Statement

### DIFFERENTIATORS

Gap Engineering is able to participate in multiple ventures that span a dynamic skill set due to our broad experience base.

We have a strong background specializing in:

- ✓ **Disaster Recovery**
- ✓ **Construction Management**
- ✓ **Large Scale Construction Projects**
- ✓ **Building/Construction Inspection**
- ✓ **Industrial Automation**
- ✓ **Electrical Design/Construction**

Gap Engineering is fast and flexible! We can ramp up quickly by providing the personnel and equipment to meet the scope of any job.

Do whatever it takes to get the job done. We have done projects throughout the U.S. and some international work.

Gap Engineering is fully insured and bondable.

We maintain a robust safety program as evidenced by a record of zero lost-time injuries among employees and subcontractors since our inception.

Established in 2004, GAP Engineering (GAP) is an 8(a) Certified Minority Business and certified by the Houston Minority Supplier Development Council operating near Houston and capable of performing projects Nationwide. Gap Engineering is specifically qualified to provide sub-contracting services to large General and Prime Contractors for the federal sector and can help fulfill the SDB and Minority qualifications requirements for large federal contracts with our 8(a) certification.

GAP has a broad range of experience in large scale construction projects, project management, and electrical construction for many sectors including pharmaceutical, energy, oil & gas, food processing, paper, mining and construction.

Our firm can perform varied and complex projects and can work in all 50 states and internationally as required. We have complied with Safety Standards under OSHA and have 14 years of zero recordable incidents since we began doing business. Our internal safety programs have been validated by outside organizations such as ISNetworld and PICS for compliance with many of our Large Corporate Customer's Safety and Insurance requirements.
